Sachanandani, Geetika
BBA

From a young age, HKU has always stood out as an impeccable tertiary institute. In particular, HKU's international environment appealed strongly to me, as it creates more peer-learning opportunities from students all over the world! Moreover, the chance to learn outside the classroom through exchange programmes makes HKU Business School an ideal place to nurture one's knowledge and broaden one's horizons. The BBA programme has allowed me to gain insight and build a more critical point of view towards the world of business. I am excited to have a fruitful journey of learning and development at HKU.

Chan, Cheuk Yiu
BEcon&Fin (HKU-PKU Dual Degree)

HKU Business School provides a wide range of high-quality programmes with world-class teaching and international focus. It also has a strong link with corporate partners, which motivates students to build up global links and market acumen that are vital for business students. For undergraduate students seeking a business degree, HKU Business School would be the best choice. Particularly, the BEcon&Fin programme enables students to study both economics and finance, which I find interesting in analyzing human behaviors, and to seek a balance in between. I believe I could develop skills essential for future careers and have a fruitful journey in the following years.

Ng, Wing Lam
BBA(Law)&LLB

I chose to study at HKU as it is one of the world's leading universities. Knowing that HKU Business School provides a wide variety of courses, I would like to be a member of it and equip myself with the knowledge and skills of various aspects. I am interested in both Business and Law so I chose this double degree programme. I hope to explore my interests at HKU where high flexibility in course selection is allowed. I am glad to have this opportunity to learn at HKU Business School.

Sesthapiyanon, Petaum
BBA

Hong Kong is the first country I thought of when considering a country to pursue a bachelor's degree. For me, of all the greatest universities in Hong Kong, HKU is the most legendary one. HKU provides me with something more than just knowledge: diversity, connections, and excitement. Ever since I accepted an offer from HKU Business School, I have been given many opportunities to participate in business-related activities to learn outside classrooms. Even though I have to study via online methods during the first semester of my first year study, all the professors always make sure that I understand every topic and help me out with my questions. In short, choosing HKU is one of the best decisions I have made.

Wong, Hei Wan Hayden
BBA(IS)

Since high school, I have always wanted to study in the business field. Even though I did not take either economics or finance in senior forms, I am interested in reading articles and news related to global business. As I am also good at mathematics and quite passionate towards computer science, I have decided to choose BBA(IS) at HKU. Learning something that I have not studied in high school would never be easy, but some of the senior students told me that there is nothing to worry about because the professors at HKU are very nice and approachable. That is the reason why I have decided to study business at HKU.

Tse, Tin Yu
BBA(IGBM)

Intending to pursue a career in business, I see HKU Business School as the holy grail of education. In particular, its unique focus on the global exposure of IGBM students has drawn me into this enriching and exclusive programme. Situated in Lung Fu Shan amidst the scenery of captivating greenery, HKU provides us with the most culturally diverse and inspiring environment to unleash our potential. With numerous learning opportunities given, I will not hesitate to get involved, indulge in my hobbies and connect with like-minded friends in the coming years. High school has been the best years of my life, yet, I will make my university life an even better experience.

Zain, Ul Abbadin
BBA(Law)&LLB

Entering HKU has always been my goal as far as I can remember. The university has a different aura stemming from its diverse atmosphere, which I wanted to include myself in. The HKU Business School provides a plethora of opportunities, including case competitions, internships, and lots more. Being in this programme, I can touch into the business and law fields simultaneously, building up my repertoire and opening up much more career choices for me. I hope to immerse myself into university life by integrating into its deep-rooted culture and being active in participating in the extraordinary events organised by both HKU and the Business School.

Nassonova, Yekaterina
BFin(AMPB)

I have joined HKU for only two weeks, but I can already feel its energy, which makes me develop, take part in different events and try something new. Due to the COVID-19 pandemic, I cannot be in Hong Kong, but this did not affect my learning process. Professors find an approach to each student, not a single detail is left unattended - it is simply amazing! Dozens of different additional courses are designed to give every student a chance to discover themselves, and I am sure many freshmen admire these opportunities like me. Nobody promised that it would be easy, but when you receive support from professors and classmates, you will forget about all the difficulties and enjoy your studies. HKU is a community with unlimited opportunities, where you can shape your future along with your desire to become the best in your profession.

Chan, Yuk Ting
BSc(QFin)

HKU is famous for its networking and tons of resources due to its long history, while its business school has a professional image. HKU also offers a lot of free electives for students, so that they can study minors or a second major. This unique system enables students to pursue their interests or academic goals. BSc(QFin) allows students to apply the knowledge in programming, statistics and mathematics to interpret the economic and financial environment, which suits the needs of the current market with advanced technological development. This is a rising trend under the era of big data and is thus attractive to me.
