**Aghahamid Hamidov**  
Azerbaijan  
BEng in Mechanical Engineering  
Year 2

From my first day, University Hall felt like a dream for a Potterhead. But the real magic lies in the community—the Castlers, Warden, staff, and alumni are all kind and supportive. As an international student, I quickly felt at home. Connection is truly the foundation of UHall, making my freshman year special.

## GRADUATE PROSPECTS

**Lamia Sreya Rahman**

BA 2019  
Co-founder of AI start-up Vidi Labs,  
Featured in Forbes 30 Under 30 Asia  
2025 – Social Impact list

My four years at HKU were rewarding and transformative, deepening my understanding of cultural and societal dynamics. An exchange in U.S. broadened my perspective and strengthened my interest in complex social issues. At HKU iDendron, I began my entrepreneurial journey—developing ideas, building a network, and refining my vision through its resources and mentorship. An internship at AmCham sharpened my understanding of the business landscape, and receiving the 2024 AmCham Women of Influence Award was an honor that further inspired me to champion women's leadership. HKU and Hong Kong equipped me with the skills and confidence to pursue my aspirations and give back.

Employment Success\*

- Full Employment

19 Consecutive years

- Employment Rate (2024)

98.7%

- Average Monthly Gross Salary

>USD4,200
