Applications are invited for admission (Full-time and Part-time) in September 2023 to the Master of Advanced Pharmacy Programme.

A. Programme Overview

The Master of Advanced Pharmacy programme aims to equip our students for essential roles in medication management and to support the evolving needs of the healthcare system and patients. This programme provides postgraduate training that students can customize to their professional needs in pharmacy practice, which may be in hospital, community, the pharmaceutical industry, or innovative transdisciplinary roles.

The Master of Advanced Pharmacy programme will have 4 structured streams:

- Clinical Practice
- Community Health
- Pharmaceutical Medicine
- Generalist

</tbody>
</table>

Students should refer to the curriculum in the syllabus for their selected concentration to guide their course selection.

C. Course Assessment

Assessment is based on a combination of continuous assessment, examination in written format and/or objective structured clinical pharmacy examination (OSCPE). Continuous assessment comprises of class tests, in-class performance, and various types of assignments, such as written report, oral presentation, and group projects.
D. Admission Requirements
To be eligible for admission to the curriculum leading to the degree of Master of Advanced Pharmacy, candidates shall:

a. comply with the General Regulations; and
b. comply with the Regulations for Taught Postgraduate Curricula; and
c. be holding a Bachelor’s degree or above
   i. in pharmacy (for Clinical Practice or Community Health streams)
   ii. in pharmacy, pharmaceutical science, pharmacology, physiology, physical science, biochemistry, biotechnology, chemistry, biomedical/biological sciences, genetics, medicine, nursing or other relevant discipline (for Pharmaceutical Medicine stream or Generalist) from this University, or from another university, or comparable institution accepted for this purpose; and
d. satisfy the examiners in a qualifying examination, if required.
